5-3 Yes to Hen Keeping in Roeland Park

December 6, 2010 Council Result

We verified the action taken at Monday night's Council Meeting with the City Staff:

The council approved allowing Residents to keep chickens in Roeland Park; motion carried, 5-3.

The council tabled the motion to allow staff to work with the City Attorney to draft an ordinance to be approved by the council. Motion carried, 8-0.

The Administrative Committee will discuss the proposed draft special permit on December 14th at 6 pm

This begins the next phase, the actual drafting of the special permit from the draft brought to the Council Meeting. We are so grateful to the City Leaders who have given us this opportunity.

The next step is addressing the issues that have been at the crux of the opposition. Some valid concerns have been brought forth and we will do our best to provide case studies and other research based solutions to those concerns.

Look for those issues to be posted here...and thank all of you for your support!

WHAT'S ALL THE CHIRPIN' ABOUT?

We are supporting Roeland Park becoming part of the 65% of metropolitan areas in the United States who allow backyard hens for those who choose henkeeping as part of a sustainable lifestyle.

ABOUT CHIRP

CHIRP

Roeland Park, Kansas, United States

We are building a community of people who care where their food comes from, believe in sustainability and choose to take charge of their health. By taking the lead in creating codes helping Roeland Park citizens to keep backyard hens, we believe our city would be taking another step in promoting the nationwide trend in healthy, sustainable, green living.
